isn't always the true temperature " so cooking times can only be used as a guide. An oven

thermometer is a good tool. Conventional and gas ovens are hottest at the top, so it's best to bake on the middle shelf to avoid burning things before they're cooked through. If your cakes start to brown too quickly, you can reduce the oven temperature by 10°C or, towards the end of the cooking ...

3. Cooking From Frozen. In this version of my cheat sheet, I added a note about how to adjust your cook time when cooking from frozen. A good rule of thumb is to add 1-3 minutes to your cook time if you're using frozen food instead of thawing first. When using frozen food, your Instant Pot will take longer to come to pressure, which is why you won't need to add very much additional cooking time.
