Robotics is an interdisciplinary branch of engineering and science that includes mechanical engineering, electronic engineering, information engineering, computer science, and others.

### **Robotics - Wikipedia**

To further investigate the evolutionary history of PCDs, we generated low-coverage (~0.005 to 2.0×) nuclear genome sequences from seven PCDs sampled in six locations in North America from time frames spanning ~9000 years (table S1).

A robot is a machine—especially one programmable by a computer—capable of carrying out a complex series of actions automatically. Robots can be guided by an external control device or the control may be embedded within.

### **Robot - Wikipedia**

A multiobjective optimization problem involves several conflicting objectives and has a set of Pareto optimal solutions. By evolving a population of solutions, multiobjective evolutionary algorithms (MOEAs) are able to approximate the Pareto optimal set in a single run.

### **Multiobjective evolutionary algorithms: A survey of the**

On January 1st, 2018, I made predictions (here) about self driving cars, Artificial Intelligence and machine learning, and about progress in the space industry.

An In-Home, IoT Solution for Early Dementia Detection. The number of people with dementia is projected to double by 2030. To address this issue, researchers have developed an IoT health monitoring system to identify signs of Mild Cognitive Impairment.

### **IEEE Xplore Digital Library**

Research . I am the director of the Evolutionary Complexity (EPIex) Research Group at UCF. Our research focuses on abstracting the essential properties of natural evolution that made it possible to discover astronomically complex structures such as the human brain.

Neanderthal-influenced traits. Credit: Deborah Brewington, Vanderbilt University Some of the associations that Capra and his colleagues found confirm previous hypotheses.

## **Neanderthal DNA has subtle but significant impact on human**

Established in 1994, The Course offers exciting Art History, Literature and Music lectures. In this 8 part series, we will see how in the European tradition, the status of "fine art" tends to be much higher than that of the "decorative arts" though the beauty and virtuosity of the latter can be spell-binding.
