G Biochemistry Cell and Molecular Biology est Practice Boo. 3 | Page. Overview . The . GRE © Biochemistry, Cell and Molecular Biology Test consists of approximately 170 multiple-choice questions, a

number of which are grouped in sets toward the end of the test and based on descriptions of laboratory situations, diagrams or experimental results.

### **gre biochemistry test practice book - ETS**

The cell membrane, or plasma membrane separates the cell from exterior environment and is composed of a phospholipid bilayer. It is composed of phospholipids which each have a polar (hydrophilic) head and a polar (hydrophobic tail). The polarity of the phospholipids helps them self assemble into a structure where the hydrophobic tails all face inward away from the aqueous interior and exterior of the cell.
