SUSHI: Globalization through Food Culture

eating of almost all flesh of animals and fowl. The vegetarian style of cooking known as shojin ryori was later popularized by the Zen sect, and by the 15th century many of the foods and food ingredients eaten by Japanese today had already made their debut, for example, soy sauce (shoyu), miso, tofu, and other products made from soybeans. Around the same time, a formal and elaborate style of ...

An Introduction to Food & Identity: From the Everyday to Ritual and Beyond. Food, like language, exists as a vehicle for expressing culture. It has the power of being both a biological necessity as well as a deeply symbolic cultural artifact, one that connects us to one another on several levels.

Food & Identity: A global approach | Exploring the power

Asian American are "Asians love sushi" and "Koreans eat dogs." As an avid dog-lover and picky seafood eater, it alarms me that such negative stereotypes still exist today in the 21 st century. I hope that my piece "Sushi Dog" brings awareness to the viewer that yes, some Asians do enjoy eating sushi and there is a small demographic of Koreans who eat dog, however not all ...
