The Common Law System. A common law system is a legal system that gives great precedential weight to common law, on the principle that it is unfair to treat similar facts differently on different occasions. The body of precedent is called "common law" and it binds future decisions. Or it is also used to denote the law applied by the courts as developed through the system of precedent without reference to legislation passed by parliament.

Initially, common law was founded on common sense as reflected in the social customs. Over the centuries, it was supplanted by statute law (rules enacted by a legislative body such as a Parliament) and clarified by the judgments of the higher courts (that set a precedent for all courts to follow in similar cases).

## **What is common law? definition and meaning**

Common law system is basically a system of laws that is made up of rulings made in previous cases, while equity is a system that provides rulings after considering every aspect of the case. These laws are developed based on rulings that have been given in older court cases.
