The economic history of Argentina is one of the most studied, owing to the "Argentine paradox", its unique condition as a country that had achieved advanced development in the early 20th century but experienced a reversal, which inspired an enormous wealth of literature and diverse analysis on the causes of this decline. Since independence from ...

Economic history of Argentina - Wikipedia

Historiography is the study of the methods of historians in developing history as an academic discipline, and by extension is any body of historical work on a particular subject.
