

world wide space law pdf

The World Wide Web, also known as the WWW and the Web, is an information space where documents and other web resources are identified by Uniform Resource Locators (URLs), interlinked by hypertext links, and accessible via the Internet. English scientist Tim Berners-Lee invented the World Wide Web in 1989.

World Wide Web - Wikipedia

The World Wide Web Consortium (W3C) is an international community where Member organizations, a full-time staff, and the public work together to develop Web standards.

World Wide Web Consortium (W3C)

McGill University's Institute of Air & Space Law and its research arm, the Centre for Research in Air & Space Law, have a rich history of education, public service and scholarship.

Institute of Air & Space Law - McGill University

The world is the planet Earth and all life upon it, including human civilization. In a philosophical context, the "world" is the whole of the physical Universe, or an ontological world (the "world" of an individual).

World - Wikipedia

Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.

Google

The goal of the Space Studies Colloquium is to bring guest researchers from the astronomical and space science communities in both industry and academia to support space-related scholarship in the Department of Space Studies and at UND and other North Dakota institutions of higher education.
